

Golden Cross Resources Ltd
ABN 65 063 075 178

2005 Full-Year Accounts

DIRECTORS' REPORT

The Directors present their report on the consolidated entity consisting of Golden Cross Resources Ltd ("GCR") and the entities it controlled at the end of, or during, the year ended 30 June 2005.

DIRECTORS

The following persons were Directors of GCR during the financial year and up to the date of this report:

Christopher Ryan
David Timms
Kerry McHugh
Chris Torrey
Daven Timms (Alternate Director for David Timms)

PRINCIPAL ACTIVITIES

The principal continuing activities of the consolidated entity during the year consisted of minerals exploration and development of precious and base metals projects in Australia, principally in NSW. There were no significant changes in the nature of the Company's activities during the year.

OBJECTIVE

The Company's long-term objective is to participate in the discovery of one or more world-class mineral deposits. The short-term objective is to add value through exploration and development of mineral properties. Value may be added through identifying and acquiring mineral properties in prospective locations, generating drill targets through sampling and innovative modelling, delineating resources, entering into significant farm-in arrangements with other companies or developing projects through to production to provide cash flow.

DIVIDENDS

The Directors report that during the year ended 30 June 2005, no dividends were declared or paid. The Directors of the Company do not recommend the payment of a dividend in respect of the financial year.

OPERATING AND FINANCIAL REVIEW

The most significant developments in the Company's operations and financing activities were as follows:

1. **Copper Hill** drilling south of the existing resource returned 100 m at 0.8% copper and 0.29 g/t gold, and has prompted a program of resource drilling and regional exploration drilling;
2. **Canbelego** 3% gross outturn royalty acquired over Polymetals' Mt Boppy Gold Project, and drilling produced grades of up to 18 m at 6.78 g/t gold at Hardwicks prospect, 12 m at 2.8% copper at Burra prospect and 5 m at 39.8 g/t gold at Birthday prospect;
3. **McArthur River** option acquired over 4,900 sq km of ground prospective for diamonds, manganese, base metals and uranium in the Northern Territory, GCR's first exploration outside NSW in 8 years;
4. **Broken Hill** property was returned to GCR 100% as GCap and Sipa withdrew from the relevant farm-ins and handed over all the data, generated from over \$1 million in exploration expenditure; and
5. **Fundraisings** in early 2005 by way of placements and a share purchase plan raised \$1.65 million.

The Company has in 2005 recorded provisions against the carrying value of a number of exploration properties, to recognise the possibility that farm-in partners will not be found and the likelihood that carried forward expenditures will need to be written off.

EARNINGS PER SHARE

	2005 Cents	2004 Cents
Basic and diluted earnings per share	(2.07)	(0.13)
Weighted average number of ordinary shares during the year used in the calculation of basic earnings per share	196,971,977	161,829,997

CASH RESERVES

At 30 June 2005 the consolidated entity held cash reserves of \$1,807,639.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

There were no significant changes in the state of affairs of the consolidated entity.

MATTERS SUBSEQUENT TO THE END OF THE FINANCIAL YEAR

At the date of this report there are no matters that have arisen since 30 June 2005 that have significantly affected or may significantly affect the operations of the consolidated entity in future financial years, the results of those operations in future financial years, or the state of affairs in future financial years of the consolidated entity.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS OF OPERATIONS

The Company is concentrating on drilling its prospective Copper Hill, Broken Hill and Canbelego properties and is seeking to farm-out a number of properties that require large expenditures to ascertain their potential.

REMUNERATION REPORT

REMUNERATION OF DIRECTORS

Principles Used to Determine the Nature and Amount of Remuneration

The Company's aim is to remunerate at a level that will attract and retain high-calibre directors and employees. Company officers and directors are remunerated to a level consistent with the size of the Company. All Directors may participate in the Share Acquisition Scheme and only Executive Directors may participate in the Employee Option Plan, which assist in the motivation and retention of Directors.

Director's Fees

The current base fees, reviewed in March 2004, are \$30,000 for the Non-executive Director and \$40,000 for the Chairman. These are within the aggregate Directors Fee Pool Limit of \$150,000 set at the 2002 Annual General Meeting ("AGM").

Executive Pay

The Executive Directors are remunerated at a level appropriate to an exploration company the size of GCR. Remuneration is set having regard to performance and relevant comparative information. In addition to a base salary, remuneration packages include superannuation, termination entitlements, fringe benefits and Employee Options. Employee Options are issued, following a recommendation to the Board by the Remuneration Committee, in consideration of an employee's efforts undertaken on behalf of the Company, and assist with the motivation and retention of employees. The issue of options to Directors requires shareholder approval.

Details of Remuneration

Details of the remuneration of each Director of Golden Cross Resources Ltd, including their personally-related entities, are set out in the following table.

Year ended 30.6.05	Primary: Salary/Fee	Post Employment: Superannuation	Equity: Shares*	Equity: Options**	Total
Name	\$	\$	\$	\$	\$
Christopher Ryan	40,000	-	-	-	40,000

<i>Total</i>	346,441	24,750	56,635	13,453	441,279

Note: * During part of the 2005 financial year David Timms and Chris Torrey participated in the Company's Share Acquisition Scheme (SAS) through salary sacrifice, in the amount of \$62,500 and \$6,000 respectively (1,250,000 shares and 120,000 shares, respectively, issued at 5c per share, the market value of the shares at the time of issue). The above share issues were approved by special resolutions of shareholders at the 2004 AGM

Note: ** See "Note ***" beneath table below.

Details of the remuneration, in the 2004 financial year, of each Director of Golden Cross Resources Ltd, including their personally-related entities, are set out in the following table.

Year ended 30.6.04	Primary:	Post	Equity:	Equity:	Total
Name	Salary/Fee	Employment:	Shares*	Options**	
	\$	Superannuation	\$	\$	\$
		\$			
Christopher Ryan	33,333	-	-	-	33,333

<i>Total</i>	310,867	21,015	43,875	18,732	394,489

Note: * During part of the 2004 financial year David Timms participated in the Company's Share Acquisition Scheme (SAS), approved by shareholders at the 2003 AGM, through salary sacrifice, in the amount of \$43,875 (487,500 shares issued at 9c per share, the market value of the shares at the time of issue). The above share issue was approved by special resolution of shareholders.

Note: ** The amounts disclosed above for equity remuneration relating to options are the assessed fair values of options at the date they were granted, allocated pro rata over the period between grant date and vesting date. This represents a change from previous years to the Company's remuneration valuation policy; in previous years the value of options at grant date was allocated in full to the year of grant. Fair values have been assessed using the Black & Scholes option pricing model. Factors taken into account by the model include the exercise price, the term of the option, the share price on the date of grant and expected price volatility of the underlying share, the expected dividend yield and the risk-free interest rate for the term of the option. Employee options vest as follows: Pre-November 2008 expiry dates: on date of grant, 0%; after 1 year, 10%; after 2 years, 25%; after 3 years, 45%, after 4 years 70% and after 5 years 100%. For expiry dates of November 2008 and beyond: on date of grant, 10%; after 1 year, 30%; after 2 years, 60%; after 3 years, 100%. The only vesting hurdle for Employee Options is the passage of time; there are no performance hurdles.

Note: *** During the 2004 financial year Chris Torrey was granted 500,000 employee options exercisable at 10 cents by 11.11.2008, as approved by shareholders at the 2003 AGM.

Service Agreements

Remuneration and other terms of employment for Executive Directors are formalised in written agreements.

David Timms, Managing Director, is employed under a contract that is continuing from year to year. It provides for termination by the Company on three months' notice. No termination benefits are provided for in addition to statutory entitlements. His present salary, reviewed in March 2004, is \$125,000 per annum plus superannuation.

Chris Torrey, Director-Exploration, is employed under a contract that is continuing from year to year. It provides for immediate termination by the Company in the event of a breach of the agreement. No termination benefits are provided for in addition to statutory entitlements. His present salary, reviewed in March 2004, is \$120,000 per annum, plus superannuation and health insurance.

Daven Timms, Company Secretary, provides legal and company secretarial services to GCR through his law firm, Resources Legal Pty Ltd. The consultancy deed is continuing on a month to month basis and provides for the supply of the services two days per week, including eight days paid time off per year, at the rate of \$82,800 per annum plus GST. The deed may be terminated by either party on three months' notice.

There are no service agreements in place for the Non-executive Directors.

Share-based compensation – options

Director Options were granted for no consideration with approval of shareholders. Employee Options were granted for no consideration under the GCR Employee Option Plan approved by shareholders at the 2003 AGM. Option holders have no rights to participate in new issues of shares. When exercisable, each option is convertible into one ordinary share.

Share-based Compensation – Share Acquisition Scheme

All Directors may participate in the GCR Employee Share Acquisition Scheme through salary sacrifice. As detailed in the note below the remuneration table above, only David Timms and Chris Torrey participated during the financial year.

NON-AUDIT SERVICES

The auditor, Ernst & Young, has not provided any non-audit services to the Company.

AUDITOR INDEPENDENCE

The auditor's declaration of independence immediately follows the Directors' Declaration. The Directors are satisfied as to the independence of the auditors.

ANNUAL GENERAL MEETING

GCR's 2005 Annual General Meeting is scheduled to be held in Sydney, NSW, on Wednesday 9 November 2005.

ENVIRONMENTAL REGULATION

The consolidated entity is subject to significant environmental regulation in respect to its exploration activities in gold and base metals. The Company meets the standards set by the Australian Minerals Industry Code for Environmental Management.

The Company has developed criteria to determine areas of 'particular' or 'significant' importance, with regard to environmental performance. These are graded 1 to 4 in terms of priority.

Level 1 incident	major non-compliance with regulatory requirement resulting in potential public outcry and significant environmental damage both long and short-term nature.
Level 2 incident	significant non-compliance resulting in regulatory action, however environmental damage is only of a short-term nature.
Level 3 incident	minor non-compliance – no fine is imposed, however regulatory authority is notified.
Level 4 incident	non-compliance with internal policies and procedures. The incident is contained on-site.

In the last year no incidents have occurred.

INSURANCE OF OFFICERS

During the financial year Golden Cross Resources Ltd paid a premium to insure the Directors and other officers of the Company and its wholly owned subsidiary. Under the terms of the policy the policy premium and policy liability cannot be disclosed.

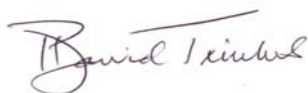

ROUNDING OF AMOUNTS TO NEAREST THOUSAND DOLLARS

The Company is of a kind referred to in Class Order 98/0100 issued by the Australian Securities and Investments Commission, relating to the 'rounding off' of amounts in the directors' report and financial report. Amounts in the directors' report and financial report have been rounded off to the nearest thousand dollars, or in certain cases, to the nearest dollar, in accordance with that Class Order.

AUDITOR

Ernst & Young was appointed as the Company's auditors, in accordance with section 327 of the *Corporations Act 2001*, at the Company's 2004 Annual General Meeting.

This report is made in accordance with a resolution of the Directors.

NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This general purpose financial report has been prepared in accordance with Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board, Urgent Issues Group Consensus Views and the Corporations Act.

It is prepared in accordance with the historical cost convention. Unless otherwise stated, the accounting policies adopted are consistent with those of the previous year. Comparative information is reclassified where appropriate to enhance comparability.

The Australian Accounting Standards Board (AASB) is adopting International Financial Reporting Standards (IFRS) for application to reporting periods beginning on or after 1 January 2005. The AASB will issue Australian equivalents to IFRS, and the Urgent Issues Group will issue abstracts corresponding to IASB interpretations originated by the International Financial Reporting Interpretations Committee or the former Standing Interpretations Committee. The adoption of Australian equivalents to IFRS will be first reflected in the consolidated entity's financial statements for the half-year ending 31 December 2005 and the year ending 30 June 2006. Information about how the transition to Australian equivalents to IFRS is being managed, and the key differences in accounting policies that are expected to arise, is set out in note 1(s).

(a) Principles of Consolidation

The consolidated accounts incorporate the assets and liabilities of all entities controlled by Golden Cross Resources (Parent Entity) as at 30 June 2005 and the results of all controlled entities for the year then ended. Golden Cross Resources Ltd and its controlled entities are together referred to in this financial report as the Golden Cross Group. The effects of all transactions between entities in the economic entity are eliminated in full.

(b) Foreign Currency

Foreign currency transactions are initially translated into Australian currency at the rate of exchange at the transaction date. At balance date, amounts payable to and by the Company in foreign currencies have been translated to Australian currency at rates of exchange ruling at that date. Resulting exchange differences are brought to account in determining the profit or loss for the year.

Hedging of foreign currency revenue and/or expenditures is not undertaken.

(c) Acquisition of Assets

The cost method of accounting is used for all acquisitions of assets regardless of whether shares or other assets are acquired. Cost is determined as the fair value of the assets given up at the date of acquisition plus costs incidental to the acquisition. Where shares are issued in an acquisition, the value of the shares is determined having reference to the fair value of the assets or net assets acquired, including goodwill or discount on acquisition where applicable.

Costs relating to the acquisition of new areas of interest are classified as either exploration and evaluation expenditure, development properties or mine properties based on the stage of development reached at the date of acquisition.

(d) Cash

For the purposes of the statement of cash flows, cash includes deposits at call which are readily convertible to cash on hand and are subject to an insignificant risk of changes in value, net of outstanding bank overdrafts.

(e) Inventories

Inventories of consumable supplies and spare parts expected to be used in production are valued at weighted average cost. Obsolete or damaged inventories of such items are valued at net realisable value. A regular and ongoing review is undertaken to establish the extent of surplus items, and a provision is made for any potential loss on their disposal.

Insurance and capital (or circulating) spare parts are capitalised and depreciated over the same remaining life as the equipment with which they are associated.

(f) Property, Plant and Equipment

Property, plant and equipment are included at cost. Depreciation is provided on a diminishing value basis on all property, plant and equipment at rates calculated to write off the cost, less estimated residual value at the end of the useful lives of the assets, over those estimated useful lives. The expected useful lives are as follows:

Plant and equipment	4 years
Motor vehicles	5 years

(g) Exploration and Evaluation Costs

Exploration and evaluation expenditure on exploration tenements and rights to farm-in are accumulated separately for each area of interest. Such expenditure comprises net direct costs and an appropriate portion of related overhead expenditure, but does not include general overheads or administrative expenditure not having a specific nexus with a particular area of interest.

Exploration and evaluation expenditure for each area of interest is carried forward as an asset provided one of the following conditions is met:

- such costs are expected to be recouped through successful development and exploitation of the area of interest, or alternatively, by its sale; or
- exploration and evaluation activities in the area of interest have not yet reached a stage which permits a reasonable assessment of the existence or otherwise of recoverable mineral resources, and active and significant operations in relation to the area are continuing.

Exploration and evaluation expenditure that fails to meet at least one of the conditions outlined above is written off or a provision made.

Provisions are made where farm-in partners are sought and there is a possibility that carried-forward expenditures may have to be written off in the future if a farm-in partner is not found. In the event that farm-in agreements are reached or the Company undertakes further exploration in its own right on those properties, the provisions would be reviewed and if appropriate, written back.

When an area of interest is abandoned, any expenditure carried forward in respect of that area is written off. Expenditure is not carried forward in respect of any area of interest unless the Company's right of tenure to that area of interest is current.

Identifiable exploration assets acquired from another mining company are recognised as assets at their cost of acquisition, as determined by the requirements of AASB 1015 *Accounting for the Acquisition of Assets*. Exploration assets acquired are reassessed on a regular basis and these costs are carried forward provided that at least one of the above conditions is met.

(h) Mine Properties

Mine properties represent the accumulation of all exploration, evaluation and development expenditure incurred by or on behalf of the entity in relation to areas of interest in which mining of a mineral resource has commenced.

When further development expenditure is incurred in respect of a mine property after the commencement of production, such expenditure is carried forward as part of the mine property only when substantial future economic benefits are thereby established, otherwise such expenditure is classified as part of the cost of production.

Amortisation of costs are provided on the unit-of-production method with separate calculations being made for each mineral resource. The unit-of-production basis results in an amortisation charge proportional to the depletion of the economically recoverable mineral reserves. Development costs still to be incurred in relation to the current reserves are included in the amortisation calculation.

The net carrying value of each mine property is reviewed regularly and, to the extent to which this value exceeds its recoverable amount, that excess is either fully provided against or written off in the financial year in which this is determined.

(i) Intangible Assets and Expenditure Carried Forward

Goodwill

On acquisition of some, or all, of the assets in another entity or, in the case of an investment in a controlled entity, the identifiable net assets acquired are measured at fair value. In determining the fair value of any identifiable exploration assets acquired, and in allocating the cost of acquisition of them, all risks relating to such assets are considered. The excess of the fair value of the cost of acquisition over the fair value of the identifiable net assets acquired, including any liability for restructuring costs, is brought to account as goodwill and amortised on a straight line basis over 20 years, being the period during which the benefits are expected to arise. The cost of acquisition is discounted as described in Note 1(c) where settlement of any part of cash consideration is deferred.

(j) Other Creditors

These amounts represent liabilities for goods and services provided to the economic entity prior to the end of the financial year and which are unpaid. These amounts are unsecured and are usually paid within 30 days of recognition.

(k) Non-Current Assets

Recoverable amount of non-current assets

The recoverable amount of an asset is the net amount expected to be recovered through the net cash inflows arising from its continued use and subsequent disposal.

Where the carrying amount of a non-current asset is greater than its recoverable amount the asset is written down to its recoverable amount. Where net cash inflows are derived from a group of assets working together, recoverable amount is determined on the basis of the relevant group of assets. The decrement in the carrying amount is recognised as an expense in net profit or loss in the reporting period in which the recoverable amount write-down occurs.

The expected net cash flows included in determining recoverable amounts of non-current assets are discounted to their present values using a market determined, risk-adjusted discount rate.

(l) Employee Entitlements

Wages and Salaries, Annual Leave and Sick Leave

In accordance with the revised AASB 1028 employee entitlements, liabilities for wages, salaries, annual leave and sick leave (regardless of whether they are expected to be settled within 12 months of the reporting date) and other employee benefits expected to be settled within 12 months of the reporting date are measured at their nominal amounts, using the remuneration rates expected to be paid when these obligation are settled.

Long Service Leave

A liability for long service leave is recognised, and is measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using interest rates on national government guaranteed securities with terms to maturity that match, as closely as possible, the estimated future cash outflows.

(m) Restoration, Rehabilitation and Environmental Expenditure

Restoration, rehabilitation and environmental costs necessitated by exploration and evaluation activities are accrued at the time of those activities and treated as exploration and evaluation expenditure.

Expenditures relating to ongoing rehabilitation and restoration programs are provided for or charged to costs of production as incurred. Other restoration costs are accrued over the life of the mine.

Restoration rehabilitation and environmental obligations recognised include the costs of reclamation, plant and waste site closure and subsequent monitoring of the environment.

Costs are estimated on the basis of current undiscounted costs, current legal requirements and current technology.

Estimates of future costs are reassessed at least annually. Changes in estimates relating to areas of interest in the exploration and evaluation phase are dealt with retrospectively, with any amounts that would have been written off or provided against under the accounting policy for exploration and evaluation immediately written off. Changes in estimates of costs relating to producing areas are dealt with prospectively over the remaining mine life.

(n) Income Tax

Tax effect accounting procedures are followed whereby the income tax expense in the statement of financial performance is matched with accounting profit (after allowing for permanent differences). Income tax on net cumulative timing differences is set aside to the deferred income tax and future tax benefit accounts at the rates which are expected to apply when those timing differences reverse. The future tax benefit relating to tax losses is not carried forward as an asset unless the benefit can be regarded as being virtually certain of realisation. To date the Golden Cross group has not elected to consolidate for tax purposes.

(o) Maintenance and Repairs

Maintenance, repair costs and minor renewals are expensed as incurred.

(p) Earnings per Share

Basic earnings per share

Basic earnings per share is determined by dividing net profit after income tax attributable to members of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

(q) Commitments for Expenditure

The Company has certain obligations to perform minimum exploration work in the next twelve months on tenements held. Details of these commitments are set out in Note 18.

(r) Revenue Recognition

Revenue consists primarily of interest revenue that is brought to account on an accruals basis.

(s) International Financial Reporting Standards (IFRS)

The Australian Accounting Standards Board (AASB) is adopting IFRS for application to reporting periods beginning on or after 1 January 2005. The AASB has issued Australian equivalents to IFRS, and the Urgent Issues Group has issued interpretations corresponding to IASB interpretations originated by the International Financial Reporting Interpretations Committee or the former Standing Interpretations Committee. The adoption of Australian equivalents to IFRS will be first reflected in the consolidated entity's financial statements for the half-year ending 31 December 2005 and the year ending 30 June 2006

Entities complying with Australian equivalents to IFRS for the first time will be required to restate their comparative financial statements to amounts reflecting the application of IFRS to that comparative period. Most adjustments required on transition to IFRS will be made, retrospectively, against opening retained earnings as at 1 July 2005.

The effect on the consolidated entity from the transition to Australian equivalents to IFRS is disclosed in Note 26.

This benefit of income tax losses will only be obtained if:

- (i) the consolidated group of companies derives future assessable income of a nature and of an amount to enable the benefit from the deductions for the losses to be realised; or
- (ii) the losses are transferred to an eligible subsidiary in the consolidated group; and
- (iii) the consolidated group of companies continue to comply with the conditions for deductibility imposed by tax legislation; and
- (iv) no changes in tax legislation adversely affect the consolidated group of companies in realising benefit from the deductions from the losses.

Exploration Properties

Details of the economic entity's exploration tenements are disclosed at the back of the Annual Report.

At year-end there were several areas of interest for which a farm-in partner was being sought. While there are reasonably-held expectations of such farm-in partners being found, Directors deemed it prudent to bring forward from 2004 the provisions of 50% against some of the previously carried-forward book values, and make further provisions against the possibility that farm-in partners will not be found and the likelihood that carried forward expenditures will need to be written down in the future. A number of carried forward expenditures were also written down during the year and one provision written back, as summarised in the first table above.

At 30 June 2005, cumulative provisions against the carrying values of exploration properties amounted to \$5.6 million (2004: \$4.3 million). In the event that farm-in agreements are reached or if GCR undertakes further exploration in its own right on those properties, the provisions will be reviewed and if appropriate, written back.

(a) Interest rate risk exposure

At balance date, the Golden Cross Group is exposed to floating weighted average interest rates for financial assets of 0.25% on \$57,638 cash balances, 5.00% on \$1,750,000 deposits at call, and between 4.90% and 5.65% on \$301,200 security deposits.

All other financial assets and liabilities are non-interest bearing.

(b) Net fair value of financial assets and liabilities

The net fair value of all monetary financial assets and financial liabilities of the Golden Cross Group approximate their carrying value.

There are no off balance sheet financial assets and liabilities at year-end.

All financial assets and liabilities are denominated in Australian dollars.

(c) Credit risk exposures

The credit risk on financial assets of the consolidated entity which have been recognised on the balance sheet is generally the carrying amount, net of any provision for doubtful debts.

(d) Net fair value of financial assets and liabilities

The net fair value of cash and cash equivalents and non-interest bearing monetary financial assets and financial liabilities of the consolidated entity approximates their carrying amounts.

16. DIRECTOR AND EXECUTIVE DISCLOSURES

The following persons were Directors of Golden Cross Resources Ltd ("the Company/GCR") during the financial year:

Chairman – Non-executive

Christopher Ryan

Executive Directors

David Timms, Managing Director

Chris Torrey, Director-Exploration

Non-executive Director

Kerry McHugh

Alternate Director

Daven Timms (Alternate Director for David Timms), Chief Financial Officer and Company Secretary

EXECUTIVES WITH AUTHORITY FOR STRATEGIC DIRECTION AND MANAGEMENT

Under the definition contained in AASB 1046, the Company has no executives other than those included in the above list of directors who are responsible for the strategic direction and operational management of the Company. In addition to the specified directors, the Company has only five employees, who conduct field and administrative work, and have no responsibility for the strategic decision making of the Company.

REMUNERATION OF DIRECTORS

Principles Used to Determine the Nature and Amount of Remuneration

The Company's aim is to remunerate at a level that will attract and retain high-calibre directors and employees. Company officers and directors are remunerated to a level consistent with the size of the Company. All Directors may participate in the Share Acquisition Scheme and only Executive Directors may participate in the Employee Option Plan, which assist in the motivation and retention of Directors.

Director's Fees

The current base fees, reviewed in March 2004, are \$30,000 for the Non-executive Director and \$40,000 for the Chairman. These are within the aggregate Directors Fee Pool Limit of \$150,000 set at the 2002 Annual General Meeting ("AGM").

Executive Pay

The Executive Directors are remunerated at a level appropriate to an exploration company the size of GCR. Remuneration is set having regard to performance and relevant comparative information. In addition to a base salary, remuneration packages include superannuation, termination entitlements, fringe benefits and Employee Options. Employee Options are issued, following a recommendation to the Board by the Remuneration Committee, in consideration of an employee's efforts undertaken on behalf of the Company, and assist with the motivation and retention of employees. The issue of options to Directors requires shareholder approval.

Details of Remuneration

Details of the remuneration of each Director of Golden Cross Resources Ltd, including their personally-related entities, are set out in the following table.

Year ended 30.6.05	Primary: Salary/Fee \$	Post Employment: Superannuation \$	Equity: Shares* \$	Equity: Options** \$	Total \$

Note: * During part of the 2005 financial year David Timms and Chris Torrey participated in the Company's Share Acquisition Scheme (SAS) through salary sacrifice, in the amount of \$62,500 and \$6,000 respectively (1,250,000 shares and 120,000 shares, respectively, issued at 5c per share, the market value of the shares at the time of issue). The above share issues were approved by special resolutions of shareholders at the 2004 AGM

Note: ** See "Note ***" beneath table below.

Details of the remuneration, in the 2004 financial year, of each Director of Golden Cross Resources Ltd, including their personally-related entities, are set out in the following table.

Year ended 30.6.04	Primary: Salary/Fee \$	Post Employment: Superannuation \$	Equity: Shares* \$	Equity: Options** \$	Total \$

<i>Total</i>	310,867	21,015	43,875	18,732	394,489

Note: * During part of the 2004 financial year David Timms participated in the Company's Share Acquisition Scheme (SAS), approved by shareholders at the 2003 AGM, through salary sacrifice, in the amount of \$43,875

(487,500 shares issued at 9c per share, the market value of the shares at the time of issue). The above share issue was approved by special resolution of shareholders.

Note: ** The amounts disclosed above for equity remuneration relating to options are the assessed fair values of options at the date they were granted, allocated pro rata over the period between grant date and vesting date. This represents a change from previous years to the Company's remuneration valuation policy; in previous years the value of options at grant date was allocated in full to the year of grant. Fair values have been assessed using the Black & Scholes option pricing model. Factors taken into account by the model include the exercise price, the term of the option, the share price on the date of grant and expected price volatility of the underlying share, the expected dividend yield and the risk-free interest rate for the term of the option. Employee options vest as follows: Pre-November 2008 expiry dates: on date of grant, 0%; after 1 year, 10%; after 2 years, 25%; after 3 years, 45%, after 4 years 70% and after 5 years 100%. For expiry dates of November 2008 and beyond: on date of grant, 10%; after 1 year, 30%; after 2 years, 60%; after 3 years, 100%. The only vesting hurdle for Employee Options is the passage of time; there are no performance hurdles.

Note: *** During the 2004 financial year Chris Torrey was granted 500,000 employee options exercisable at 10 cents by 11.11.2008, as approved by shareholders at the 2003 AGM.

Service Agreements

Remuneration and other terms of employment for Executive Directors are formalised in written agreements.

David Timms, Managing Director, is employed under a contract that is continuing from year to year. It provides for termination by the Company on three months' notice. No termination benefits are provided for in addition to statutory entitlements. His present salary, reviewed in March 2004, is \$125,000 per annum plus superannuation.

Chris Torrey, Director-Exploration, is employed under a contract that is continuing from year to year. It provides for immediate termination by the Company in the event of a breach of the agreement. No termination benefits are provided for in addition to statutory entitlements. His present salary, reviewed in March 2004, is \$120,000 per annum, plus superannuation and health insurance.

Daven Timms, Company Secretary, provides legal and company secretarial services to GCR through his law firm, Resources Legal Pty Ltd. The consultancy deed is continuing on a month to month basis and provides for the supply of the services two days per week, including eight days paid time off per year, at the rate of \$82,800 per annum plus GST. The deed may be terminated by either party on three months' notice.

There are no service agreements in place for the Non-executive Directors.

Share-based compensation – options

Director Options were granted for no consideration with approval of shareholders. Employee Options were granted for no consideration under the GCR Employee Option Plan approved by shareholders at the 2003 AGM. Option holders have no rights to participate in new issues of shares. When exercisable, each option is convertible into one ordinary share.

Share-based Compensation – Share Acquisition Scheme

All Directors may participate in the GCR Employee Share Acquisition Scheme through salary sacrifice. As detailed in the note below the remuneration table above, only David Timms and Chris Torrey participated during the financial year.

GOLDEN CROSS EMPLOYEE SHARE ACQUISITION SCHEME (SAS)

The SAS, re-approved by shareholders at the 2002 AGM, enables the Company to conserve cash by remunerating its employees and Directors in shares instead of cash. Participation in the SAS was offered to all employees in respect of up to half of their remuneration on a quarterly basis, with elections to be made by employees during the last month of each quarter. The issue price of the shares is equal to the weighted average price of GCR shares for the three months immediately preceding the election date. Details of shares issued are set out in Note 13.

The total number of shares issued under the SAS and held in trust must not exceed 15% of the total number of the Company's issued shares at any time, and those shares issued under the SAS in any year must not exceed 7.5% of the total number of the Company's issued shares.

GOLDEN CROSS RESOURCES EMPLOYEE OPTION PLAN

The Golden Cross Resources Employee Option Plan was re-approved by shareholders at the 2003 AGM. All full-time employees (including executive directors) of Golden Cross Resources Ltd and its controlled entity are eligible to participate in the plan. Employee options vest as follows: on date of grant, 10%; after 1 year, 30%; after 2 years, 60%; after 3 years, 100%. For issues made prior to November 2003 options vested as follows: on date of grant, nil; after 1 year, 10%; after 2 years, 25%; after 3 years, 45%; after 4 years, 70%; and after 5 years, 100%.

Refer to Note 13 for details of options issued during the year. The number of shares in respect of which options are on issue at any time must not exceed 5% of the issued capital of the Company at that time.

Unissued ordinary shares of Golden Cross Resources Ltd under option at the date of this report include 7.6 million Director options exercisable at 15 cents by 30.11.2006, 1.25 million unquoted options exercisable at 12.5 cents by 1.1.06 and 3.790 million employee options exercisable at 10 cents as follows:

However, diluted earnings per share is the same as basic earnings per share as the potential ordinary shares would reduce the loss per share. The options have not been included in the determination of basic earnings per share. Details relating to the options are set out in Note 13.

26. IMPACT OF ADOPTING AUSTRALIAN EQUIVALENTS TO IFRS

The Company has commenced the transition of its accounting policies and financial reporting from current Australian Accounting Standards (AGAAP) to Australian equivalents of International Financial Reporting Standards (AIFRS), which will be applicable for the financial year ended 30 June 2006. Set out below are the key areas where accounting policies will change from 1 July 2004, the Company's transition date to AIFRS, and may have an impact on the Company's financial reporting.

The figures disclosed are management's best estimates of the quantitative impact of the changes as at the date of preparing the 30 June 2005 financial report. The actual effects of transition to AIFRS may differ from the estimates disclosed due to (a) ongoing work being undertaken; (b) potential amendments to AIFRSs and Interpretations thereof being issued by the standard setters and IFRIC; and (c) emerging accepted practice in the interpretation and application of AIFRS and UIG Interpretations.

(i) Income tax

Under the new AASB 112 *Income Taxes*, deferred tax balances are determined using the balance sheet method which calculates temporary differences based on the carrying amounts of an entity's assets and liabilities in the statement of financial position and their associated tax bases. In addition, current and deferred taxes attributable to amounts recognised directly in equity are also recognised directly in equity.

This will result in a change to the current accounting policy, under which deferred tax balances are determined using the income statement method, items are only tax-effected if they are included in the determination of pre-tax accounting profit or loss and/or taxable income or loss and current and deferred taxes cannot be recognised directly in equity. It is expected that there will be no material effect for the Company.

(ii) Exploration Expenditure

Under the new AASB 6 *Exploration for and Evaluation of Mineral Resources*, the tests under which exploration companies may carry forward exploration expenditure will be required to use an "area of interest" approach. It is expected that there will be no material effect for the Company.

(iii) Intangible assets – goodwill

Under the new AASB 3 *Business Combinations*, amortisation of goodwill will be prohibited, and will be replaced by annual impairment testing focusing on the cash flows of the related cash generating unit.

This will result in a change to the current accounting policy, under which goodwill is amortised on a straight line basis over the period during which the benefits are expected to arise and not exceeding 20 years. It is expected that there will be no material effect for the Company.

(iv) Equity-based compensation benefits

Under AASB2 *Share based Payments*, the Company would recognise the fair value of options granted to employees as remuneration as an expense on a pro-rata basis over the vesting period in the income statement with a corresponding adjustment to equity. Share-based payment costs are not recognised under AGAAP.

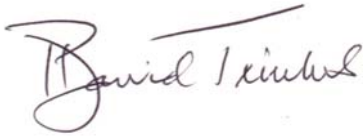

The change in accounting policy would result in adjustments to retained earnings (net of tax), and a reduction of net profit, of \$19,297 as at 1 July 2004 and \$28,128 at 30 June 2005.

DIRECTORS' DECLARATION

The Directors declare that:

- (a) in their opinion:
 - (i) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable; and
 - (ii) the financial statements and notes comply with the *Corporations Act 2001*, including:
 - (A) the Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
 - (B) giving a true and fair view of the Company's and consolidated entity's financial position as at 30 June 2005 and of their performance, as represented by the results of their operations and their cash flows, for the financial year ended on that date; and
- (b) they have received the declaration from the Chief Executive Officer and Chief Financial Officer required under section 295(4) of the *Corporations Act 2001*.

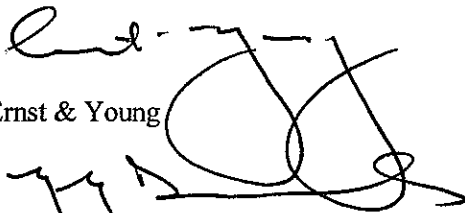

This declaration is made in accordance with a resolution of the Directors.

Auditor's Independence Declaration to the Directors of Golden Cross Resources Limited

In relation to our audit of the financial report of Golden Cross Resources Limited for the year ended 30 June 2005, to the best of my knowledge and belief, there have been no contraventions of the auditor independence requirements of the Corporations Act 2001 or any applicable code of professional conduct.

Independent audit report to members of Golden Cross Resources Limited

Scope

The financial report and directors' responsibility

The financial report comprises the statement of financial position, statement of financial performance, statement of cash flows, accompanying notes to the financial statements, and the directors' declaration for Golden Cross Resources Limited (the company) and the consolidated entity, for the year ended 30 June 2005. The consolidated entity comprises both the company and the entities it controlled during that year.

The directors of the company are responsible for preparing a financial report that gives a true and fair view of the financial position and performance of the company and the consolidated entity, and that complies with Accounting Standards in Australia, in accordance with the *Corporations Act 2001*. This includes responsibility for the maintenance of adequate accounting records and internal controls that are designed to prevent and detect fraud and error, and for the accounting policies and accounting estimates inherent in the financial report.

Audit approach

We conducted an independent audit of the financial report in order to express an opinion on it to the members of the company. Our audit was conducted in accordance with Australian Auditing Standards in order to provide reasonable assurance as to whether the financial report is free of material misstatement. The nature of an audit is influenced by factors such as the use of professional judgement, selective testing, the inherent limitations of internal control, and the availability of persuasive rather than conclusive evidence. Therefore, an audit cannot guarantee that all material misstatements have been detected.

We performed procedures to assess whether in all material respects the financial report presents fairly, in accordance with the *Corporations Act 2001*, including compliance with Accounting Standards in Australia, and other mandatory financial reporting requirements in Australia, a view which is consistent with our understanding of the company's and the consolidated entity's financial position, and of their performance as represented by the results of their operations and cash flows.

We formed our audit opinion on the basis of these procedures, which included:

- examining, on a test basis, information to provide evidence supporting the amounts and disclosures in the financial report, and
- assessing the appropriateness of the accounting policies and disclosures used and the reasonableness of significant accounting estimates made by the directors.

While we considered the effectiveness of management's internal controls over financial reporting when determining the nature and extent of our procedures, our audit was not designed to provide assurance on internal controls.

We performed procedures to assess whether the substance of business transactions was accurately reflected in the financial report. These and our other procedures did not include consideration or judgement of the appropriateness or reasonableness of the business plans or strategies adopted by the directors² and management of the company.

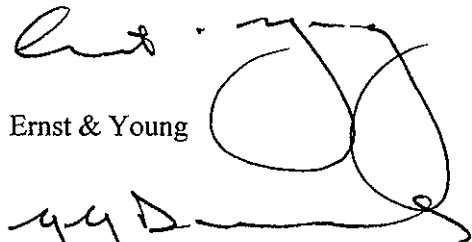

Independence

We are independent of the company, and have met the independence requirements of Australian professional ethical pronouncements and the *Corporations Act 2001*. We have given to the directors of the company a written Auditor's Independence Declaration a copy of which is included in the Annual Report. The Auditors' Independence Declaration would have been expressed in the same terms if it had been given to the directors at the date this audit report was signed.

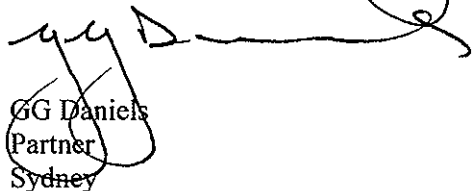

Audit opinion

In our opinion, the financial report of Golden Cross Resources Limited is in accordance with:

- (a) the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the financial position of Golden Cross Resources Limited and the consolidated entity at 30 June 2005 and of their performance for the year ended on that date; and
 - (ii) complying with Accounting Standards in Australia and the *Corporations Regulations 2001*; and
- (b) other mandatory financial reporting requirements in Australia.
